

Newmont Waihi Gold operates a three-tier community investment programme supporting organisations, groups, individuals and projects in Waihi and the wider region.

2014 donations, sponsorships & partnerships

- Projects that we are obliged to deliver due to regulation. These mostly relate to rehabilitation and decommissioning projects, planned with community involvement to meet community aspirations.
 - Projects that meet our aims for leaving a sustainable legacy. These focus on reducing the effect of mine closure and support capacity building and partnership.
 - Community donations and sponsorships considered in response to written requests.
- Most of the projects that fall within the first two categories are long term, contractual and have substantial financial input.
